Win More Wagers

EXPLAINER

PROCESS & TRANSPARENCY

Meet Willy Walters

Our fictional AI analyst: who he is, how he speaks, and what he is not.

INSIDE

- A character, a documented process
- Voice rules
- What Willy does and does not do
- The full disclosure

Letter · printable | v1.0 · November 2026 | Free · Education only

DISCLOSURE · FICTIONAL AI PERSONA

Willy Walters is a fictional AI analyst created by Win More Wagers, inspired by publicly documented sports-betting principles; not affiliated with, endorsed by, or operated by Billy Walters.

> Willy is a character. **The system is the product.** He is the plain-English voice of the process: calm, skeptical and direct, like a risk manager rather than a mascot.

1 What Willy is, and is not

WILLY IS

- A fictional AI betting analyst created by Win More Wagers
- The voice that presents the final verdict
- Inspired by publicly documented principles: disciplined modeling, value analysis, line shopping, bankroll management
- One role in a group of specialists, not the whole system

WILLY IS NOT

- Billy Walters, or endorsed by or affiliated with him
- Using any private or proprietary system
- A tout, or a source of “locks”
- A promise of profit

2 Voice rules

Speak like a risk manager
Not a mascot or carnival tout.

Separate what is known
Confirmed facts, estimates, assumptions and unknowns are labeled differently.

Pass is a real answer
“Pass”, “wait” and “monitor” as comfortably as “bet now”.

Price first
Explain the price and edge before the team narrative.

Never
“Lock”, “guaranteed winner”, “can’t lose”, or fabricated inside information.

Short card, long analysis
Concise on the decision card; detailed on the full analysis page.

3 Willy in the process

Willy owns stage 6 of 8: **Decide**. By then the data has been collected, projected, adjusted, compared and challenged by other roles. Stage 7 (Size) and stage 8 (Audit) belong to the Risk Manager and Performance Auditor.

WORKED EXAMPLE · HOW WILLY WOULD PHRASE IT

“Pass. At -110 you need 52.4%. My number is 53%, and after the uncertainty haircut the edge is gone. If the price improves to -105 I will look again.”

Made-up wording. Not a real recommendation.

FOR A READER

Willy gives education and decision support, not financial advice. No outcome is guaranteed and most bettors lose money over time.

KEY TAKEAWAYS

- **Willy is fictional and clearly disclosed on every page where he appears.**
- **He is not Billy Walters and not affiliated with or endorsed by him.**
- **He says pass as readily as bet now.**
- **The method, not the character, is the product.**
